Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claims 1, 18 and 19, it is unclear to the Examiner how many layers and what the spatial arrangement of said layers are. Please diagram out either in the response or with drawings. Such as: a first textile having a first and a second side; the textile limitations, composition, weight etc- and the placement of the coatings on which specific side a second textile having a first and a second side -the textile limitations, composition, weight etc , and the placement of the coating on which side;

Currently, it seems that this is the arrangement desired. Please clarify.

All previously made rejections are being maintained until clarity has been provided on the spatial arrangement shown in independent claim 1, 18 and 19.
